

# C++ Tools

This document describes installation instructions for the `c++` tools required by some cases on Windows.

## Instructions

In order to install and download the tool, please visit the following address: <https://visualstudio.microsoft.com/visual-cpp-build-tools/>

Assuming **Visual Studio** is installed, running the Build Tools Installer should present a number of options. Of these options, choose “C++ Build Tools” and click “Install”.

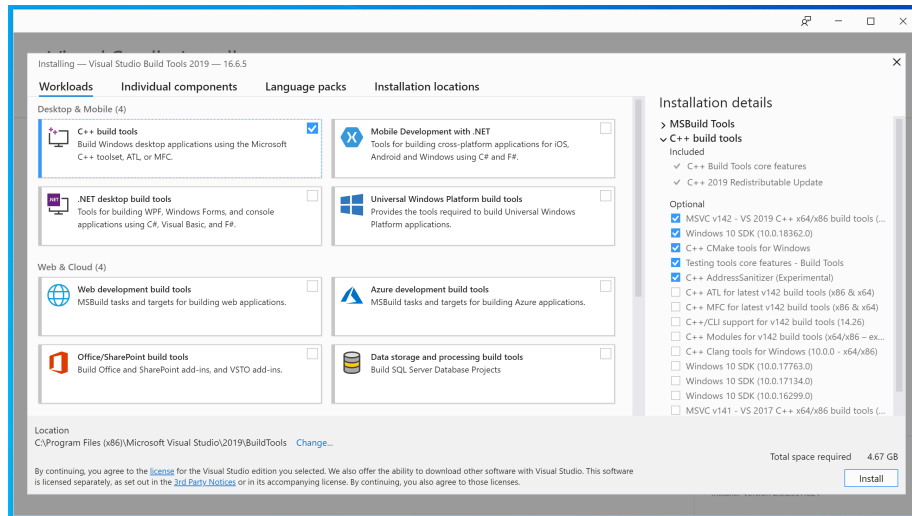

Figure 1: Install C++ Build Tools using Build Tools Installer

The download should require around 5GB of hard drive space.
